- 55 Watt LED Security Light and Flood Light to be installed on CVEC wood Pole with secondary service available.
- No residential light is available for Albemarle County due to the lighting ordinance.
- Purchase of electric energy for this service shall be billed under CVEC rate schedule SHL.
- Lights (excluding the 100 Watt HPS Security light) require a 36 month contract. Payment of remainder of contract will be required if service is terminated prior to the terms of the contract.
- 55 Watt LED Security light installed on a wooden pole requires a 12 month contract. Payment of remainder of contract will be required if service is terminated prior to the terms of the contract.
- * Total 30-day monthly cost before county tax and monthly power cost adjustment.
